FICAAR/SCI In Madrid

Every first weekend in March the 1.4 million Spanish hunters have one place to meet and this is the "FICAAR/SCI" Hunt Show in Madrid. Organized by SCI's partner for the Spanish and Portuguese media markets, Cega Multimedia, FICAAR/SCI is the largest Spanish hunters' show, with an emphasis on international hunting. All SCI Chapters on the Iberian Peninsula are represented in a large area to show their activities and gather new members. Shown during the official opening walk-around and visit to the SCI Section are the Spanish Vice-Minister Jose la Manzanara, third from right; Andrés Gutierréz Lara, President of the Royal Spanish Hunters Federation, third from left; as well as SCI's Regional Representative Europe, Norbert Ullmann, second from right.
